

# **SOUNDSTIK**® *classic*

The SOUNDSTIK*classic* offers audio without adding noise to the exhibit area. Visitors simply lift the SOUNDSTIK and listen.

- Plays audio from an amplified source.
- Optional internal magnetic switches can mute audio, start or stop devices, turn on lights, etc.
- No staff is needed to hand out and retrieve equipment.
- Visitors with hearing and visual impairments appreciate the alternative to unintelligible loud speakers and hard-to-read labels.

Your FM radio quality music, sound and commentary are always ready for your visitors.

*Other models are available with mp3 storage/play functions and/or user-controlled volume with auto-reset.*

#### Typical Applications:

- Video Kiosk Clusters
- Audio Upgrade for Static Exhibits
- Multi-Language Messages
- Audio Description
- Accessibility for Visitors with Hearing Impairments

The SOUNDSTIK*classic* is hearing aid and T-Coil compatible.

Vista Group's popular family of SoundStik products has been serving the museum community, here and abroad, for over 25 years. Clients include museums, libraries, historical societies, halls of fame, nature centers, tradeshow and corporations.

Vista Group also manufactures outdoor SoundPost systems for gardens, parks and overlooks and provides equipment and
