VIDEO KIOSKS AND UNSTAFFED EXHIBITS

- Maintain quiet ambiance for clusters of video kiosks.
- Rejuvenate static exhibits.
- Switch SoundStik audio to speaker output for school groups.
- Offer self-serve product information at trade shows.

OUTDOOR INTERPRETIVE PROGRAMS

- Let children hear and mimic birdsongs.
- Provide self-guided walking tours.
- Welcome visitors with orientation messages.

AUDIO TOURS

- Translate and produce multi-language audio tours.
- Start up to 30 foreign language soundtracks in synch with English video.
- Create and service tank by tank aquarium tours.
- Write, produce, and operate traveling exhibition audio tours.

MANY MESSAGES AT ONE LOCATION

- Add zoo information to parking lot tram ride.
- Access oral history library.
- Identify each item in a china case or photo wall.

CUSTOM SYSTEMS

- Design Question-and-Answer push button systems.
- Select critter sounds with rotary switch.
- Synchronize audio sound effects with exhibit action and lighting.
- Trigger dark ride audio in each car at specific points along the route.
